

KNIFESTYLES OF THE RICH & FAMOUS

1999

FOREHEAD

"The likely place most of Dysport or Botox has helped give a smoother appearance is the brows elevate, showing off Debra's lovely eyes," says LA's Dr. Ben Tabet. Cost: \$2,000 a year.

NOSE

While Debra has never looked anything short of gorgeous, "An apparent rhinoplasty has given her nose an 'open' or 'natural' look," observes plastic surgeon Dr. Nicholas Slavick. Price tag? \$12,500.

CHEEKS

"It appears that fillers have been placed into the cheeks and folds around the mouth [up to \$3,000] to help smooth out the shadows formed as the cheeks descend with age," notes Dr. Tabet.

JAWLINE

"It looks as if she's had fillers in the pre-jowl area [on either side of the chin] that made her jaw appear more square," says Nashville's Dr. Slavick. Injections ran \$2K and up.
